BITES

Biomedical Introduction To Engineering Synthetics

The University of Warwick are hosting a free lab experience day for A-Level students, which includes an introduction into synthetic biology and its engineering applications.

We are looking for bright, inquisitive thinkers with an interest in STEM.

Activities include:

- Biomechanical Engineering Workshop
- Microbiology Lab
- Industry Speakers with Q&A Session
- Network with Natural Scientists & Engineers
- Debating the ethics of Synthetic Biology

17th October 2017

10.00 – 16.00

DEADLINE

Please register by 9th October.
Places awarded on a first-come,
first-serve basis.
